

BEFORE

THE PUBLIC SERVICE COMMISSION OF

SOUTH CAROLINA

DOCKET NO. 92-208-E - ORDER NO. 93-203

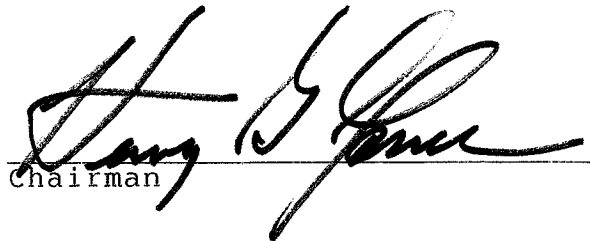

MARCH 1, 1993

IN RE: Duke Power Company - Integrated) ORDER APPROVING
Resource Plan (IRP).) REQUEST FOR REVISION
) OF COMFORT MACHINE
) LOAN PROGRAM

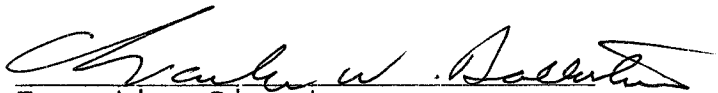

This matter is before the Public Service Commission of South Carolina (the Commission) on Duke Power Company's (Duke's or the Company's) request to revise its Residential Comfort Machine Loan Program (Program). Duke asserts it desires to revise its Program to provide for financing of up to \$10,000 for a "special technology." Duke defines "special technologies" as variable speed head pump units and heat pump units with integrated domestic water heating costs in excess of the current \$5,000 limit for a single heat pump. Duke asserts that, in order to qualify as a "special technology," the heat pump unit must be approved and inspected by the Company's HVAC program manager. Duke also proposes to revise the Program to make it available to mobile home owners who own the mobile home, but do not own the real property on which the home is located.

After consideration of Duke's proposals, the Commission finds and concludes that the Company's revisions should be and are hereby approved, effective January 1, 1993. Duke shall file ten (10) copies of its revised Program within fifteen (15) days of the date of this Order.
